Assignors,

Please see below notice that was sent to league teams regarding AED requirements. Please share with your officials.

We are asking that in the event a game is not permitted to be played based on the home club not having the proper AED requirements on site that the referee email us immediately to inform us, info@newyorkclubsoccer.com

Please let us know if you have any questions

Clubs/Teams in ENYISA,

COMPLIANCE WITH THE NEW YORK STATE PUBLIC HEALTH LAW (PHL)

SECTION 3000-F REGARDING AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) RELATED REQUIREMENTS IS MANDATORY!

The Law

New York State Public Health Law (PHL) Section 3000-F, effective May 21, 2024, mandates multiple requirements related to automated external defibrillators (AEDs), including regulated children's camps and youth sports programs must have access to:

- An automated external defibrillator (AED) during all games, practices, and other related sports activities.
- Personnel certified to use AEDs.
- An implementation plan for using AEDs.

Intent

A top priority for everyone involved with youth soccer is the well-being of our players, coaches, referees, and spectators. Having an AED readily available, certified personnel and an implementation plan to follow can significantly improve the chances of survival in case of sudden cardiac arrest (SCA). Consequently, New York State, as well as ENYISA administrators in New York State, and local authorities mandate AED requirement be met at youth soccer events.

-

Compliance

[Please review the AED guidance from Eastern New York Youth Soccer Association for more information.](#)

ENYISA's recommended addition to the Rules & Procedures of the ENYISA By-Laws includes: *"All Leagues, Clubs and Teams must have an appropriate number of Automated External Defibrillator (AED) available on-site at all Tournaments, Games, Training Sections, Practices, Camps and/or Soccer Activities in compliance with New York State and Local laws, regulations. . . Each League, Club and Team will be responsible to confirm the availability of the AED prior to any soccer activity. Failure to have an AED on site at any soccer game result in the cancellation of the game, or forfeiture of the game by the home team, or any other results as the League or ENYISA deems just and proper. The Team must notify the lack of an AED at the field prior to the start of any game and confirm that the referee notes the missing AED on his or her referee report.*

Since the PHL related to AEDs and youth sports programs was passed, multiple messages regarding compliance have been sent by ENYISA, CJSL, and EDP Soccer/NYCS to the clubs/teams and referee assignors with which they work.

In addition, AED purchase and rental options have been provided:

- Purchase: Clubs/teams can purchase an AED at a special rate through the Eastern New York Youth Soccer Association (ENYISA). [More information can be found here.](#)
- Rental: For those who prefer not to purchase, AED rentals are available as needed. [More information can be found here.](#)

Game Day

As has been previously communicated, EDP Soccer is requiring all clubs/teams playing in EDP Soccer managed league competition to comply with New York State Public Health Section 3000-F. Each time a club/team hosts a game, it must be able to demonstrate compliance. This requirement is not optional.

In the event that a home team fails to comply with New York State Public Health Law (PHL) Section 3000-F, the visiting team and game officials will cancel the game due to the failure to comply. Such canceled games will be marked as a forfeit by the home team. There will be no rescheduling of these canceled games.

Seasonal Year (2024/2025)

To ensure that all clubs/teams participating in EDP Soccer managed league competition in New York State have:

- Received, understand, and accept the requirements mandated to comply with New York State Public Health Law (PHL) Section 3000-F, each participating club/team sign, and submit the attached AED Compliance Assurance Form back to EDP by completing this online submission: <https://forms.office.com/r/jQNMdEK28i>
- Access to confirmation that they (club/team) comply with New York State Public Health Law (PHL) Section 3000-F, each club/team is required to make a copy of the final AED Compliance Assurance Form and make it available for all games in which the club/team is designated the "home team" for review by the game officials/referee or "coach/manager" prior to the scheduled game time. As previously noted, failure to comply will result in the home team forfeiting the game.
